

Kawartha Heights Public School

School Bullying Prevention and Intervention Plan

At Kawartha Heights Public School we believe the most effective means to address bullying is through a comprehensive, school-wide approach that engages all stakeholders – students, parents, guardians, staff, School Council, volunteers and the community.

This school based plan aligns with the Kawartha Pine Ridge District School Board's Bullying Prevention and Intervention Plan. Our school plan promotes a school-wide approach to ensuring we have a safe, inclusive and accepting school environment free from bullying, harassment, discrimination and other inappropriate behaviours.

The Board's Bullying Prevention and Intervention Plan, as well as our school's plan, reflect the Ministry of Education guidelines.

.....
The Ministry of Education defines bullying as follows:

Bullying - means aggressive and typically repeated behaviour by a pupil where,

- (a) the behaviour is intended by the pupil to have the effect of, or the pupil ought to know that the behaviour would be likely to have the effect of,
 - (i) causing harm, fear or distress to another individual, including physical, psychological, social or academic harm, harm to the individual's reputation or harm to the individual's property, or
 - (ii) creating a negative environment at a school for another individual, and
- (b) the behaviour occurs in a context where there is a real or perceived power imbalance between the pupil and the individual based on factors such as size, strength, age, intelligence, peer group power, economic status, social status, religion, ethnic origin, sexual orientation, family circumstances, gender, gender identity, gender expression, race, disability or the receipt of special education ("intimidation").

For the purposes of the definition of "bullying" above, behaviour includes the use of any physical, verbal, electronic, written or other means.

Cyber-bullying

For the purposes of the definition of “bullying” above, bullying includes bullying by electronic means (commonly known as cyber-bullying), including,

- (a) creating a web page or a blog in which the creator assumes the identity of another person;
- (b) impersonating another person as the author of content or messages posted on the internet; and
- (c) communicating material electronically to more than one individual or posting material on a website that may be accessed by one or more individuals.

In other words, bullying:

- is a deliberate act to harm or exclude someone or “put someone down”
- usually happens more than once over time
- involves someone having more power over another and abusing that power

Pre-evaluation strategy

The main issues of concern raised by our students in our school climate surveys (most recent survey was 2019) and other communications are:

1. Boys are not feeling accepted and are not having positive relationships with their peers at school; specifically Gr. 6
2. There is a need to bring more diversity into teacher lessons to include indigenous, and other social and cultural areas
3. There is a need to have more student voice / leadership opportunities
4. Teachers are looking for a road map on how to achieve help for students who are struggling with mental health and behaviour
5. There is a need to include parents in our promotion of mental health learning

Concerns raised regarding our physical environment are:

1. students are looking for clear expectations on what is acceptable behaviour and they are looking for more supervision on the yard during breaks

The steps we follow for reporting, responding to, and following up on issues are as follows:

1. School based incident reports (teacher to teacher communication, staff to office communication), Safe Schools Incident Report form and responses, KPR Report It app for bullying and discrimination issues
2. Based on a review of our school climate survey results and other communications, we have been successful in the following areas:
 - a. Data shows strengths in teacher/student relationships
 - b. Most students feel safe at school
 - c. Primary and Junior students are able to identify basic strategies that they use when angry or upset

3. Barriers which we anticipate may interfere most with creating sustainable change are:

- i. Policies that can accommodate diversity across communities
- ii. Diverse needs and experiences of families and communities

- iv. Students' perceptions about responsibility for safe schools
- v. Pervasive societal messages about the acceptability of violence
- vi. Shortage of resources (Board and Community)
- vii. Limited professional development opportunities
- viii. Administrative and staff turnover

Based on our school climate surveys and other communications, we will continue to work on the following areas that need improvement:

- 1. teaching, reinforcing and celebrating our Cougar ROAR School Rules
- 2. ensuring multiple opportunities for student voice and leadership opportunities to ensure students feel valued and accepted
